Mission

Vietnam Water Cooperation Initiative-VACI supports the Vietnam's efforts of Vietnam to become a global waterhub, a strategic platform for water industry to leverage on the development of water technologies, learning and networking. VACI is the global WaterHub Center for both local and international water institutions keen to capitalise on the business, education and R&D opportunities in Vietnam's water industry and the region.

What we do

The VACI's three key strategic thrusts are:

- A global waterhub for knowledge sharing, networking and business connect (**Conect@hub**)
- An institute of advanced learning for water professionals and communities (**Education**)
- A global center for water R&D, inovation and incubator (**R&D Incubator**)
