Public Lecture Series

VACI proudly presents our public lecture series in monthly basis to our community, citizens, students and water profesionals. Unless otherwise noted, all lectures are free and open to the public. Seating can only be guaranteed with a reservation. Once registration for each event is available to the public, we will post a link to register online on the individual lecture page. You can access the lecture pages by clicking on the photos. As a courtesy, standby seating will be offered whenever possible. Feel free to direct all registration-related questions to us.

A public lecture series can be a great way to showcase your research and excite the public about water related topic.
